- Steps to create a Local Chapter

Subpages

Creating an ECG Local Chapter is an important first step in helping create a global citizen's movement. A Local Chapter brings citizens, businesses and other organizations together to help fulfil the vision of the Economy for the Common Good.

Steps to create a Local Chapter

1. Check our Web Site to make sure there is not already a Local Chapter in your area.

2. Find a group of people willing to commit to helping create a chapter and encourage them to sign up as members of an ECG association.

3. Once you have four people in your group who are members of an ECG association, you can sign up as a Local Chapter.

4. Send your application to International Reception (international@ecogood.org).

You can download the Official ECG Application for Local Chapters here in different languages:
